Subject:	US Patent Application No. 10/787,385, filed 2/26/2004 (Attorney Ref: 03-02US) Title: CYANOCOBALAMIN LOW VISCOSITY AQUEOUS FORMULATIONS FOR INTRANASAL DELIVERY		

Request for your assistance to proceed to Issuance

Dear Mr. Ward:

This facsimile is to inquire about a January 5, 2007, printer rush in the IFW requiring your review, which is delaying the issuance of the patent.

The Office of Publications (571-272-4200) indicates the **printer rush must be completed and scanned back**, as it is generated by the contractor responsible for the file. The printer rush requests your initialing the citation lines on Form 1449 of the January 19, 2005, IDS.

Please check your docket and complete the action. If you do not have the inquiry on your docket **please** ask the legal examiners assistant to check the IFW and forward the printer rush to you for completion.

We need your assistance in resolving the delay in answering the printer rush. This is a critical patent application and we need to help move it to issuance. Please contact me directly should you have any questions. Thank you.

Best regards,

Peter J. Knudsen, Esq.
